Keynote Speakers

Paul Dickens, ResMed

Don Parker, Provecta Process Automation

Organising Committee

General Chair

Ian Petersen

University of New South Wales

Technical Programme

Andrey Savkin

University of New South Wales

Publications

Jose De Dona

University of Newcastle

Local Arrangements

Jie Bao, Hendra Nurdin, Zhiyu Xi

University of New South Wales

Steven Su

University of Technology Sydney

Finance and Registration

Denny Oetomo

University of Melbourne

Publicity and Sponsorships

Changbin (Brad) Yu

Australian National University

Conference Secretary

Daoyi Dong

University of New South Wales

Second Australian Control Conference

<http://www.aucc.org.au/sydney>

The second annual Australian Control Conference (AUCC) is organised by Engineers Australia through its National Committee for Automation, Control and Instrumentation (NCACI). It is technically sponsored by the IEEE Control Systems Society. The purpose of the conference is to provide a forum for Australian and International researchers, students and control engineers from industry and Government organisations to exchange ideas and recent results, as well as discuss current problems arising in control engineering research and industrial practice. International contributions are encouraged and will be solicited for.

The technical programme consists of oral presentations, poster presentations, keynote lectures and special industrial sessions whose purpose is to encourage a better exchange between practising control engineers and researchers in universities and government agencies. The proceedings will be available from the Engineers Australia online library and IEEE Xplore®, and will be indexed by EI (subject to confirmation).

The conference will be held on the campus of the University of New South Wales in the Sydney Eastern Suburb of Randwick.

Important Dates:

Submission of papers: **7th May, 2012**

Author notification: July, 2012

Final upload of papers: 2nd September, 2012
