

Call for Papers

2013 Australian Control Conference Perth, Western Australia

Organising Committee

General Chair

Victor Sreeram
University of Western Australia

Technical Programme Chair

Parisa Bahri
Murdoch University

Lorenzo Ntogramatzidis
Curtin University

Publications

Wan-Quan Liu
Curtin University

Local Arrangements

Roberto Togneri
University of Western Australia

Finance & Registration

Roshun Paurobally
University of Western Australia

Publicity & Sponsorships

Xin Zhang
Curtin University

Conference Secretary

Khac Duc Do
Curtin University

AUCC Steering Committee

Dragan Nesic
University of Melbourne

Ian R. Petersen
University of New South Wales

Ljubo Vlacic
Griffith University

Matthew James
Australian National University

Reza Moheimani
University of Newcastle

Mark Pszczel
DSTO

Victor Sreeram
University of Western Australia

Wei Xing Zheng
University of Western Sydney

2013 Australian Control Conference

Dedicated to the memory of Professor John Moore (1941 - 2013)

Perth, Western Australia

November 4-5, 2013

<http://www.aucc.org.au/Perth>

The Australian Control Conference (AUCC) is a new conference series that is organised by the Institution of Engineers Australia (IEAust) through its National Committee for Automation, Control and Instrumentation (NCACI). It is technically sponsored by the IEEE Control Systems Society. Its purpose is to provide a forum for researchers, students and control engineers from industry and government organisations to exchange ideas and recent results, as well as discuss current problems arising in control engineering research and industrial practice. International contributions are encouraged.

The technical programme consists of oral presentations, poster presentations, keynote lectures (**Professors Iven Mareels and Richard Middleton**) and special industrial sessions. A limited number of student travel awards sponsored by CSS Outreach Fund are now available. Please see the conference website for more details.

The proceedings will be available from the Engineers Australia online library and from *IEEEExplore*, and will be indexed by EI (subject to confirmation).

Two types of contributions are sought:

Regular papers, 8 pages for submission, 6 pages for proceedings (peer reviewed, presented orally or as posters to be decided by the technical program committee, published in proceedings)

Industrial abstracts, 2 pages (peer reviewed, typically presented as posters or in a special oral session on industrial problems, published in proceedings)

Important Dates

Submission of camera-ready papers:	3rd May, 2013
Author notification:	5 th July, 2013
Conference:	4-5 November, 2013
