

AUCC 2014

Australian
Control
Conference

Australian Control Conference Indexing Policy.

The Australian Control Conference is included in the IEEE Conference Publications Program (CPP). IEEE has a long-standing commitment to ensuring the high quality of its conferences and of the conference proceedings published in IEEE Xplore®. Therefore, IEEE reserves the right to withhold publishing of proceedings that do not meet the IEEE quality standards.

IEEE makes every reasonable attempt to ensure that abstract and index entries of content accepted into the CPP are included in databases provided by independent abstracting and indexing (A&I) services. Each A&I partner makes its own editorial decision on what content it will index. IEEE cannot guarantee entries are included in any particular database.

Previous years' AUCC proceedings have been listed in IEEE explore and every expectation is that this will continue. Moreover, previous years' conference papers are indexed in Scopus and in EI and it is expected that this will also continue.
